

Need to find respite or
dementia care *fast*?
We can help!

Express Move-In

Our express move-in process allows new residents needing long-term and respite dementia care to move from your medical facility to their new home quickly and efficiently—for their comfort and for your convenience.

The process is simple. What we need from you:

- **Call** and notify us about the prospective resident.
- **Fax us** any relevant information (progress notes, current medication orders, history and physical).
- **Relax.** If any move-in forms are required, we will fax them or hand-deliver them to you.

What you can expect from Discovery Memory Care:

- **A scheduled visit** from a community representative within 3 hours of receiving your request.
- **A thorough review** of the assessment information by the Director of Wellness or Executive Director, to ensure that we can meet the new resident's needs.
- **An answer** to your request *the same day*.
- **An onsite meeting**, if needed, with the resident's family to discuss financial issues and move-in details.
- *Same-day move-in may be available. Please call to determine availability.*

We're here for you.
Just call us.
